CORPORATE SPONSORSHIP PROGRAM

BLACK IN AI

CORPORATE SPONSORSHIP PROGRAM

The Black in AI Corporate Sponsorship Program is designed for organizations that align with our mission to broaden representation in the field of artificial intelligence. The program supports researchers from around the world to access career opportunities and present their work at Black in AI-hosted seminars and annual workshop.

BLACK IN AI

THE CHALLENGE:
ACCESS

CORPORATE
SPONSORSHIP PROGRAM

CLOSING THE ACCESS GAP

BUILDING BRIDGES: Black in AI Workshop

The Black in AI Workshop provides professional development opportunities and a platform for our community to showcase their work.

The Workshop also facilitates collaboration with peers and corporate partners to advance partcipants' careers.

REMOVING BARRIERS: The Travel Award Program

The Black in AI Travel Award Program aims to break financial and social capital barriers, ensuring inclusive participation in prestigious events like the Conference on Neural Information Processing Systems (NeurIPS), regardless of background.

CONNECTING OPPORTUNITIES: Networking & Resources Sharing

Through our events and community platform, we facilitate connections by providing access to job opportunities, speaking engagements, internships, research collaborations, and mentoring.

CORPORATE SPONSORS: HOW YOU CAN SUPPORT

SPONSORSHIP TIERS

RUBY..... $200K

- Event collaboration opportunities with Black in AI throughout the year
- Opportunity to collaborate directly with the Black in AI community of 5300+ members (research, events, e.t.c.)
- All Diamond Tier features

PLATINUM..... $100K

- Acknowledgment as Conference Workshop Sponsor on all programs, materials, and website
- Opportunity to participate in the conference Workshop
- Invitation to connect with our community during our exclusive/social events
- All Gold Tier features

DIAMOND..... $150K

- Opportunity to engage participants in our programmatic work
- Share exciting opportunities in the ecosystem to our membership base of AI professionals
- All Platinum Tier features

GOLD..... $50K

- Presentation table/booth at Workshop co-located at NeurIPS conference
- Access to Workshop attendee Resume Book
- Acknowledgment as Conference Workshop Sponsor on Black in AI website
- Invitation to connect with our community during our dinner event

BLACK IN AI

THE IMPACT

BLACK IN AI

THE IMPACT: TRANSFORMING CAREERS

To showcase research and innovation of AI practitioners, we invite distinguished works from authors across AI & ML to be presented and discussed at The Black in AI Workshop.

THE IMPACT

ELEMENTS OF THE WORKSHOP

Career Opportunities

Personal Brand Building

Ideas Exchange

Networking & Mentoring

Professional Development

BLACK IN AI

THE IMPACT:
FUNDING FUTURES

THE IMPACT

RESEARCH TRAVEL GRANT PROGRAM

Black in AI is committed to removing financial barriers for AI researchers presenting their work to the academy and industry. Black in AI awards researcher grants to accepted authors from around the world to cover the total cost of attending The Workshop.

600+
Travel Grantees Supported

- Full Cost of Travel
- Room & Board
- Shared Ride Credits
- Per Diem
- Conference Registration Costs

40+
Countries Represented

BLACK IN AI

THE IMPACT: EMPOWERING OUR COMMUNITY (2023 SPONSORS)

THE IMPACT

NETWORKING & RESOURCE SHARING

Through collaboration with corporate sponsors, attendees have the chance to forge connections with industry professionals, enrich their networking experience, and advance their careers.

On-site mentorship for 50+ NeurIPS attendees with Apple, IBM, and Vector Institute

Fireside chat on AI & Society at ICML with representatives from Google DeepMind, Vector Institute, and IBM Research

Inaugural 3-Minute Thesis presentation at NeurIPS; judged with support from MathWorks and Vector Institute

Presentation booths to connect with Workshop attendees

Panel session at Black in AI workshop featuring representatives from IBM Research

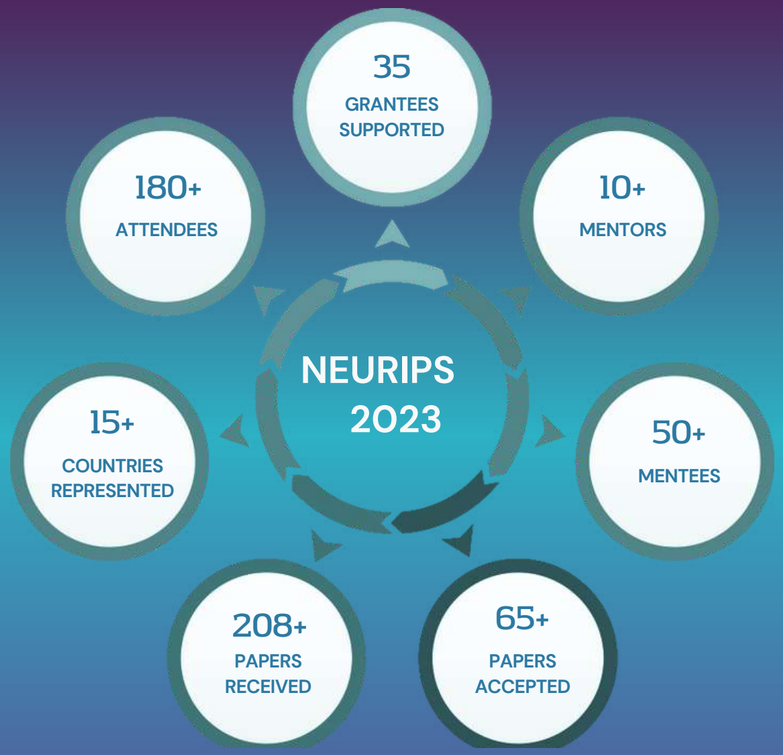
BLACK IN AI

NeurIPS is the largest AI / ML conference showcasing the latest research, advancements, and trends in the AI field.

THE IMPACT

2023 IMPACT

BLACK IN AI WORKSHOP & EVENTS AT NEURIPS



By supporting individuals to attend this event, we ensure that our community stays at the forefront of AI innovation.

TESTIMONIALS

BLACK IN AI

TRAVEL AWARD GRANTEES

TESTIMONIALS

"I got contact information from Apple researcher and Microsoft to discuss an internship and a full-time position. Also CEO of Cohere for AI, provided me with compute resources and mentored me."

- Amanuel Mersha
Machine Learning Engineer, BitzBrain Research

"I found my current PhD advisor after being a travel grantee at NeurIPS 2022."

- Eric Opoku
Research Assistant, Centre for Research Analytics, Technology & Evaluation, Grand Valley State University, USA

"Attending NeurIPS is a huge value add for me. It changed my perspective to thinking about turning my research into a product that can be used to transcribe and translate under-resourced Ethiopian languages."

- Martha Yifiru Tachbelie
Associate Professor, Addis Ababa University

BLACK IN AI

TRAVEL AWARD GRANTEES

TESTIMONIALS

"Found a mentor, who works at Meta, during the poster session. This mentor was a recommender on my PhD application and also encouraged me to apply to Black in AI's academic program."

- Eric Peter Wairagala
Research Engineer, Lelapa AI

"Being at NeurIPS gave me the opportunity to meet potential doctoral advisors in-person."

- Emmanuel Asante
Senior ICT Assistant (Post-doc), University of Energy and Natural Resources, Ghana

"Got contact information of an IBM researcher to talk about getting funding to move my research from the lab to deployment."

- Hernan Dario Benitez Restrepo
Machine Learning Engineer, AI Fund

BLACK IN AI

OUR WORK

BLACK IN AI

BLACK IN AI

Founded in 2018 as a 501(c)(3) nonprofit organization, Black in AI aims to shift the power dynamic in the field of artificial intelligence by broadening the range of voices contributing to the development and regulation of AI technologies – to ensure that our community members are full partners in affirming their technological and economic futures.
